ABOUT ME

I am a Software Engineer skilled in the Fundamentals of Front and Back-end development

WORK EXPERIENCE

MyApp Labs, Accra/Ghana — *Software Engineer*

OCTOBER 2021 - JANUARY 2023

- Served over 5000 user by contributing to the inventory management feature on MyAppLab's Vend One project
- Built a dynamic search server: a server that makes it possible for clients to search databases they specify
- Met clients to gather resources and feedback that guided the development of the responsive websites we delivered for them

Synerdoc, Accra/Ghana — *Software Engineer*

OCTOBER 2022 - DECEMBER 2022 (Contract)

- Worked as part of a (5) person Team in building the Synerdoc project (Homecare Management System)
- Contributed the Patients and Referrals feature on the Synerdoc project.
